## Dusty Poxon Wins at Drum

Francis (Dusty) Poxon, outstanding young sportsman of Carbon took top honors at the Drumbheller Curling Club's annual Bonspiel Monday when he won the Grand Aggregate and the Red Deer Valley Coal Company trophy. On Sunday Poxon placed second in the Westergard Motors, going down to defeat against Rollie Yavis, who was battling him for the Grand Aggregate, also losing only one game in the bonspiel.

Dusty is equally happy in summer as well as winter sports. A few years ago he was the Alberta

## Master Merit Award Is Won By Local Man

Mr. W. B. Elliott of the Alberta Pacific Grain Co. (1943) Ltd., at Entice, Alta., has been awarded a Ten Year Elevator Master Merit Certificate. This award is granted by Grain Insurance and Guarantee Company in recognition of proficiency in the care of grain elevator premises and to earn this, an elevator agent must have a perfect record for a period of ten consecutive years.

Inspections of all plants insured by Grain Insurance and Guarantee Company are carried out by Affiliated Inspection Bureau Limited. This organization for the past twenty years has majored in the inspection of grain elevators, flour and feed mills and other properties, and its service is acknowledged as being thorough and exacting. Winning the award is therefore recognized as a definite achievement by the grain trade generally.

### MUNICIPAL DISTRICT OF KNEEHILL No. 43 NOTICE

The annual ratepayers' meeting will be held on Monday, February 22nd, 1954, at 1:30 p.m. in the Lyric Theatre, Three Hills, and not in the Community Centre, Three Hills, as previously advertised.

A. J. Purvis,  
Secretary-Treasurer.

junior tennis champion, and has now emerged as an outstanding curler.

In the Red Deer Valley competition, Poxon defeated Otto Schielke of Drumbheller. Don Sharpe of Munson was third and Rollie Yavis of Drumbheller 4th.

Nick Rawlusk of Drumbheller defeated Don Sharpe of Munson to take the A. P. Hanley event. Duncan Brown was third and Hautzinger of Morrin fourth.

The James DeZeeuw Memorial event is yet to be played. Don Sharpe is in the finals with Earl Parsons of Drumbheller.

The bonspiel was delayed several days due to lack of ice.

Patsy Poole and Shirley Gimbel had a birthday party each for a few of the younger friends. Both celebrated their seventh birthdays.

At the nomination meeting of the Village of Carbon, Alf Hoivik was the only one nominated, and was re-elected by acclamation.

### BOY SCOUT ACTIVITIES

On the 13th, Sat., at 2:00 the meeting was held in Mr. Hoivik's basement where all were present but Don Kary. Well, I was lucky this week. Aaron got the job of patient (two broken arms and a broken thigh). Bill and I; the Doctors, and the rest of them listened to a talk by Mr. Isaac on two cycle and four cycle engines and other parts of the Auto Mechanics' Badge. The essays are to be written over because we didn't put all of what we should have in. Mr. Isaac summed up the camp costs and it is in the neighborhood of \$10 each, not including spending money.

—Arthur Hoivik.

Mrs. C. H. Nash is spending a few days with Mr. and Mrs. Norman Nash.

Bonnie Fox had a birthday party on Wed., Feb. 17 in honor of her sixth birthday.

Mr. Adam Ohlhauser is a patient in the Drumbheller hospital.

BORN—To Mr. and Mrs. Jack McLeod (nee Loretta Talbot) a daughter, Feb. 18th in Portage La Prairie hospital.

DISASTER

ON CANADIAN ROADS!

Every fifteen minutes, a Canadian suffers serious injury in a traffic accident. Every four hours a life is lost. Every two minutes a fender is smashed.

Insurance cannot restore life or mitigate pain. All it can do is relieve the financial burden of disaster. Even then, the bill comes high.

Last year, companies writing Automobile Insurance paid out more than \$75,000,000 in accident claims — a part of the cost of carelessness and discourtesy in driving.

## Commercial Mustard Crop In Southern Alberta Important

Commercial mustard has become a crop of considerable importance in southern Alberta. A Lethbridge firm commenced contract growing of this crop in 1936, but it had been grown for a few years previous to that on a considerable scale by at least two farmers in the Warner district for Montana millers.

The acreage has rapidly increased during the past decade. In recent years it has usually been between 35,000 and 50,000 acres and Lethbridge now claims the distinction of handling more mustard than any other centre in the world.

There are three kinds of mustard being grown. Yellow, brown and Oriental, but the acreage of yellow far exceeds that of either of the other two. Tests at the Lethbridge Experimental Station says W. D. Hay, show the yellow to be definitely earlier than the other two, but also definitely lower in yielding capacity. Yields throughout the district during the last three seasons have been much better than usual running as high as 1500 pounds per acre in a few cases, but the average yield per acre of yellow mustard over a long period of years is approxi-

mately 500 pounds per acre.

Yellow mustard can be easily distinguished from all other types of both the cultivated and wild forms by its colour and size of kernel. The Brown and Oriental are more difficult to identify, but this can be done fairly easily with the aid of a magnifying glass. Farmers are not worried about commercial varieties becoming weeds since they can be easily controlled by summerfallowing or by spraying which is becoming a fairly general practice for the control of all broad leaved annual weeds.

Mustard is sown about the middle of May, after wheat seeding is completed, and is usually harvested by straight combining just before wheat harvesting commences.

Since the market for mustard is very limited, and varies from season to season, Mr. Hay cautions, it is almost essential to grow it under contract.

Lethbridge contracting firms paid .05 per pound this season for Yellow mustard and .03% per pound for Brown. Over a long period of years the net returns per acre from mustard on dry land have been much the same as those from wheat.

### REAL HELP FOR Your Itching Piles OR NO COST

If Hem-Roid, as internal pile treatment, does not quickly ease the itching soreness and burning pain of your piles—it costs you nothing.

Get a package of Hem-Roid at any drug store and use as directed. You will be pleased at how quickly your pile trouble is relieved. Only 1.59 for the big 60 tablet package. If you are not 100% pleased after using Hem-Roid 2 or 3 days, as a test, ask for your money back. Refund agreement by all drug stores.

This modern design features the flush type of door which does not require mouldings to cover the edges of the plywood, as these do not show when the cabinet is closed. The drawers are the block-front flush type which are the easiest of all for the amateur to make. The piece is forty-six inches high and forty-two inches wide. Make it with ordinary household tools or take the pattern to your neighborhood woodworker to be cut out. Then follow the large three-dimensional sketches for assembling and finishing as shown on Pattern 223. Price of pattern is 35c. Bedroom Furniture Packet containing patterns for Bed, Dressing Table, Terraced Bedside Stand, and two sizes of Drawer Cabinets to be used as a unit or separately, is priced at \$1.50 postpaid.

The leaf scroll used for these shelves and the pair of matching brackets is an old design of a treasured family heirloom. The shelves are twenty-one inches high. The brackets shown in the sketch are twelve inches high. The pattern for this group also gives a design for seven-inch brackets which makes possible a number of different groupings. Patterns may be traced onto the wood or if you want to make more than one set of shelves, paste the pattern onto cardboard to serve for any number of sets. The two patterns illustrated are 35c each. If you like to make useful articles on your jig saw you will be delighted with the wide variety of full-size patterns contained in the Jig-Saw Packet, including 336 and 339 shown in the sketch. Price of packet is \$1.50.

Home Workshop Pattern Service, Prairie Publishers Limited, 4433 West Fifth Avenue, Vancouver, B.C.

## Funny and Otherwise

At a ball a girl had "gate-crashed."

The hostess gave her just time to remove her coat, then she moved quickly to the scene, and extending her hand, said in dulcet tones, "I hear you've been looking for me, my dear—to say goodnight."

Wife—"Will you love me when I am old and grey?"

Husband—"Well, I think so. I've loved you through three other colours already."

He was a believer in the uplifting effect of the drama, and now that he had met his twin soul, what could be more natural than that he should take her to "Othello" to be similarly inspired? And she was. The scene of Desdemona's death beneath the pillow moved her profoundly.

"That reminds me!" she exclaimed. "I must get some loose covers for the cushions in my sitting-room."

An actress at a party, seeing an authoress whom she disliked, went over to congratulate her on her latest book.

"I enjoyed it, my dear," she said. "Who wrote it for you?"

"Darling," replied the authoress, "I'm glad you liked it. Who read it to you?"

"I'm afraid someone very near to you is going to be disappointed," said the crystal gazer.

"I'm afraid you're right," confessed the client. "I've come out without any money."

"When I was once in danger from a lion," said the big-game hunter, "I tried sitting down and staring at him, as I had lost my gun. The lion didn't even touch me."

"Strange! How do you explain that?"

"Well," mused the hunter, "It must have been because I was sitting on a high branch of a tall tree."

"You mustn't let Monica's wedding upset you, dear. Don't think of it as losing a daughter—but of gaining a bathroom."

"What did you say last night when Jack asked you to marry him?"

"I shook my head."

"Sideways, or up and down?"

Marie: "I must say I don't think much of your fiancé."

Betty: "I don't want you to."

"I don't know how you can say she's got legs like Marilyn Monroe!"

"Oh, well—the same number," anyhow."

GROUP CAPTAIN E. A. McNab, R.C.A.F., 45, of Rosthern, Sask., who has been named Equerry-in-Waiting to the Duke of Edinburgh on the latter's tour of Canada this year. Now Director of Personnel Administration at R.C.A.F. Headquarters, Ottawa, G/C McNab was commanding officer of Canada's first fighter squadron to go overseas in 1940. The first Canadian to shoot down an enemy aircraft in World War Two, G/C McNab was also the first to be awarded the Distinguished Flying Cross. A graduate of the University of Saskatchewan with the degree of B.Sc. in civil engineering, G/C McNab joined the R.C.A.F. Regular in 1928.

### Sport Fishing Becoming Popular In Saskatchewan

PRINCE ALBERT. — Revenue from licence sales shows that Saskatchewan's sport fishing resources are continuing to attract an increasing number of anglers every year.

Figures just released by the provincial fisheries branch revealed that angling licence sales since the 1953-54 season opened last May 16, totalled 61,305, bringing the province nearly \$95,000 in revenue. Total revenue realized for the corresponding period the previous year was \$89,768.

Although the present angling season extends to March 31, 1954, licence sales are not expected to show any appreciable increase over the present total. Of the 61,305 licences issued to date, 49,931 were resident, 5,391 resident trout, 3,220 non-resident angling, and 2,753 non-resident trout.

Licence sales for the 1952-53 season totalled 56,728, while revenue amounted to \$93,832.

## Curler's Ode To His Skip

Aloof he stands and points his sceptre;  
Cold and proud and strong,  
We love our skip; he's like a king;  
And a king can do no wrong.

We cherish with humility  
His icy approbation;  
We cringe before his righteous wrath  
When we earn his condemnation.

We love our skip—his word's our law  
And we're his vassals meek;  
When he strikes out in righteous rage  
We turn the other cheek.

When we go narrow, short or long,  
Or, horrors! even wide,  
We know the fault's not in the broom  
It's us despite we tried.

Our spirits drop, our hearts grow cold,  
He actually missed that draw!  
He's sure his broom and weight were right;  
It obviously was a straw.

It's "Lese Majeste" to even think—  
But—was he a trifle light,  
No—that we just cannot believe;  
Our skip is always right.

What's that you say behind the glass?  
Why, that is nought but treason!  
You're sure that he was really light?  
No straw—no other reason?

We loved our skip—we really did;  
But now the truth holds sway—  
We find our man of iron has  
But mortal feet of clay

## 3 different Cheese-flavored Treats from One Basic Dough!

NEEDS NO REFRIGERATION!

Clever one-oven tricks with FLEISCHMANN'S YEAST!

One dough—one oven—three kinds of flavor-thrilled baking! It's easy to be a whiz when you start with Fleischmann's Fast Rising Dry Yeast. Rises so sure, so fast—results so light and appetizing! If you bake at home, be sure you have plenty of Fleischmann's on hand.

### BASIC CHEESE DOUGH

Scald  
1½ cups milk  
3 tablespoons granulated sugar  
2 teaspoons salt  
3 tablespoons shortening  
Remove from heat and cool to lukewarm. In the meantime, measure into a large bowl  
½ cup lukewarm water  
1 teaspoon granulated sugar  
and stir until sugar is dissolved. Sprinkle with contents of  
1 envelope Fleischmann's Fast Rising Dry Yeast  
Let stand 10 minutes, THEN stir well. Stir in lukewarm milk mixture.

Stir in  
2½ cups once-sifted bread flour  
and beat until smooth and elastic; stir in  
1½ cups lightly-packed shredded old cheese  
Work in  
2½ cups more (about) once-sifted bread flour  
Turn out on lightly-floured board and knead dough lightly until smooth and elastic. Place in a greased bowl and grease top of dough. Cover and set dough in warm place, free from draught, and let rise until doubled in bulk. Turn out dough on lightly-floured board and knead lightly until smooth. Divide into portions and finish as follows:

### 1. CHEESE LOAF

Shape half a batch of dough into a loaf and fit into a greased bread pan about 4½ by 8½ inches. Grease top. Cover and let rise until doubled in bulk. Bake in a moderately hot oven, 375°, about 40 minutes—cover loaf with brown paper during latter part of baking to avoid crust becoming too brown.

### 2. MARMALADE BREAD

Roll out a quarter of a batch of dough into an 8-inch square on a lightly-floured board; loosen dough. Spread with ¼ cup marmalade and sprinkle with ¼ cup chopped nuts. Roll up jelly-roll fashion; seal edge and ends. Roll out into an oblong 9 inches long and 3 inches wide; loosen dough.

Cut oblong into 3 lengthwise strips to within an inch of one end. Braid strips, seal the ends and tuck them under braid. Place on greased cookie sheet. Grease top. Cover and let rise until doubled in bulk. Bake in a moderately hot oven, 375°, about 20 minutes.

### 3. CHEESE BREAD STICKS

Cut a quarter of a batch of dough into 12 equal-sized pieces and roll, one at a time, into slim strips about 7 inches long. Brush strips with water and roll lightly in cornmeal. Place, well apart, on greased cookie sheet. Cover and let rise until doubled in bulk. Bake in a moderately hot oven, 375°, about 10 minutes.

# Land Based Test Rocket Travels At 1,500 M.P.H

Resembling an airplane wing set on edge, rocket sled tests new type parachute at 1,000 miles an hour.

(CPC Correspondent)  
EDWARDS AIR FORCE BASE, Calif.—Can a pilot escape safely from a fighter plane while zinging through the sky 1,000 miles an hour?

Or at 2,000 miles an hour? Those speeds are coming rapidly, so the questions by no means are idle ones.

Answers are being found already, not with human pilots, but with their escape mechanisms attached to the world's fastest land vehicle. It's a rocket propelled sled, and it can go three times faster than sound.

The sled slithers along a 10,000-foot-long railroad track on the Mojave desert. It weighs two tons. Already it has been stopped and recovered intact from speeds higher than 800 miles an hour. Question is, can the equipment under test hold together when being halted from higher velocities?

Actually, the sled reportedly has sped several times along its rails at a 1,500-mile-an-hour clip. It uses fuel made of oxygen and alcohol. The flames set up a 50,000-pound thrust, which is about equal to 50,000-horsepower in conventional engines. From a stop, it gets up to 1,500 miles an hour in 4.5 seconds while travelling 5,500 feet.

## • GEMS OF THOUGHT •

### WOMEN

This is woman's hour, in all the good tendencies, charities, and reforms of today. — Mary Baker Eddy.

Contact with a high-minded woman is good for the life of any man. — Henry Vincent.

Kindness in women, not their beauteous looks, shall win my love. — Shakespeare.

A good and true woman is said to resemble a Cremona fiddle—age but increases its worth and sweetens its tone. — O. W. Holmes.

No one knows like a woman how to say things which are at once gentle and deep. — Victor Hugo.

Modern invention has banished the spinning wheel, and the same law of progress makes the woman of today a different woman from her grandmother. — Susan B. Anthony.

**HERE'S HEALTH**  
Ulcers keep you on the rack? Then heed this counsel sound. It's time you left that medical quack And a proper doctor found.

Dept. of National Health and Welfare

The sled rides on perfectly par-flanges keep it from flying wild. It's a perfectly smooth steel rails. Special slippers that grip the rail. To stop the vehicle, a scoop dips into a trough of water. What happens is called momentum transfer. It grinds to a halt in 300 feet.

High on the priority list for work with the sled are tests performed by Cook Research laboratories to determine the best design and construction of parachutes to be used with supersonic jet airplanes.

Chutes that operate satisfactorily when released during the high speed runs are certain to give good service when "balled out" of jet airplanes at about half the speed of the sled.

Instruments and materials also can be checked out for high speed service. With special adaptations, the sled also can be used to determine the effects of high speed and fast stops on human beings.

The liquid fuel for rocket engines has two advantages over solid fuels; it can operate efficiently on very cold and very hot days, and a single running charge costs only \$100 compared to \$5,000 for solid fuels.

No human has ridden the sled yet at 1,500 miles an hour, but medical researchers probably will try the vehicle before its life is expended.

They will learn the effects of air blast when bailing out at high speeds. They will check such items as helmets and goggles. Present models fly away. New designs must be found.

Probably new type flying suits will be developed as a result of runs here. Present one rip and

tear when exposed suddenly to a 1,000-mile-an-hour air blast.

Even engine assemblies and parts of airplanes ride these super-smooth rails to learn how they behave when moving twice as fast as sound.

Airmen call the sled "the whizzer". It really whizzes. Certainly its speed is pushing aviation ahead with giant strides.

## TRY AND STOP ME!

By BENNETT CLEP

Blood will tell. The young son of one of the country's most successful merchants sold a pal his old space-cadet uniform by assuring him, "It's practically new. I only wore it once and then only for a measly trip to Mars."

A farmer from Missouri came to see how his sick friend was progressing in the country hospital. "He's getting on splendidly," a nurse assured. "You can take my word for it, he's convalescing now." "Do tell," said the farmer, scratching his noggin. "If it's all the same to you, I'll sit right here till he's finished."

Scotch joke variation No. 68414: Excavations in Aberdeen have come upon a Scottish penny dated 1588. A few feet away, they unearthed three skeletons, all on their hands and knees.

Arthur Lake's new book, "Killers in Africa," has a mighty apt subtitle: "The Truth About Animals Lying in Wait and Hunters Lying in Print."

## On The Side • By • E. V. Durling

The first periodical to offer advice to the lovelorn was the Athenian Mercury of London, published over 260 years ago. Then as now, the most asked question by females was, "Where is the best place to get a husband?" The Mercury editor always answered, "Surely the best place to get a husband is where men are plentiful and women scarce." That is still the best answer to the aforementioned eternal question.

### How To Choose a Hat

Next to the Duchess of Windsor, it is probable Marlene Dietrich is the world's greatest hat enthusiast. She buys hats by the dozen. Lily Dache, the justly famous hat designer, says Miss Dietrich has her own peculiar way of trying on a hat. Marlene retires to a special dressing room and removes all her attire. She then tries on the hat. It is only when she is wearing nothing but the hat that Miss Dietrich can be certain it suits her.

### Example of Quiet Strength

An elephant is a peaceful animal and never looks for trouble. However, as you know, the elephant never forgets an injury and will wait for years to get even. One of the strongest of all animals, an elephant can, with its trunk, throw a man 40 yards. That is just about the distance a catcher throws a baseball from home plate to second base. So be careful about irritating an elephant.

### Paying Your Way — Out

"Discharge by purchase" is once more in effect in the British army. That means, of course, a soldier can buy his way out of the service before the expiration of his term of enlistment. The price, varying according to time left to serve, is from \$168 to \$514.

### Triple Threat Runabout

Three-wheeler automobiles have never been very popular in this country. In England, the three-wheeler Morgan automobile has been successfully manufactured for over 40 years. The type of Morgan car known as the "Super Sports Aero," has done 160 miles an hour. The three-wheeler automobile idea doesn't interest me much. What I am looking forward to is that "triple threat" motor car—one that can be operated on land, water, or in the air. Such an automobile has been deemed practical. In fact, one has already been patented that will operate on land or in the air. Shouldn't be difficult to mechanically arrange for such a car to operate on water, too. Like a hydroplane.

### Conventional Invitation

Information I recently offered as to how the girls of Tahiti make known their romantic standing was not complete. This is how it goes. If a Tahitian beauty wears a flower behind her left ear, it means, "I am looking for a sweetheart." Behind the right ear means, "I have a sweetheart. Stay away." Flowers behind both ears mean, "I have a sweetheart but I am looking for a better one." It must be rather depressing for a young fellow in Tahiti to see his sweetheart come strolling down the avenue with flowers in both ears. Too bad the bachelorettes in this country don't have a similar system for broadcasting their romantic situation. Flowers behind the ears might not be practical. However, perhaps it could be done with earrings.

## No Cover Charge For This Menu (?)

Planning on taking your wife or lady friend out to dine tonight? Why not take her to Mrs. J. Callaway's place, where the menu includes such delicacies as fricassied partridge on toast and moose with red currant jelly?

Or perhaps you would prefer black bear roast with hunkadory sauce—or roast opossum with sweet potatoes. You can take your choice of vegetables from butter beans to corn and boiled or mashed potatoes. For relish there is boneless turkey stock jelly or chow chow.

If you have a sweet tooth, Mrs. Callaway gives you your choice of paradise pudding, English plum pudding or peach tarts, as well as apple or mince pie. Or possibly your taste runs to ginger snaps or marble cake—ladies' finger or sponge cake.

Make your mouth water? Unfortunately, Mrs. Callaway's place, the European House, is no more, and you will have to find some other place to take your lady friend to dine. But, where else will you find such a variety of inviting dishes on the menu as there are on this Christmas 1892 menu of Mrs. Callaway's European House, on Fort Street, Winnipeg?

## BUSY WORKER

VANCOUVER. — Mrs. Hazel Moran, who has been blind since she was eight years old, has become a successful therapist working with her husband, a registered masseur. She also sings in a choir and makes handicrafts.

## Strictly Fresh

When a man continually puts his foot in his mouth you can usually be sure he's got a big mouth.

Armenian peasants lay iron weapons around the beds of their women during child birth as a protection against demons.

## Drive With Care!

## Children's New Lingerie And Sleepwear Now Duplicate The Grownups' Styles

Nylon dress-up slip for little sister has ribbed bodice and full, stand-out skirt finished with wide ruffle. Straps and bodice have lace trim. Ski-jama, (right), is in cotton flannel with red background and white print. There's ribbing at neck, sleeves, waist and ankles.

### By EDNA MILES

Fashions in children's lingerie and sleepwear are as up-to-the-minute as those for mother.

Can-can ruffles. Nylon taffeta petticoats. The elasticized bodice for super fit. Cotton print pajamas with matching slippers, both in gay colors that appeal to children.

Although dress-up lingerie and pajama and nightgown fashions for children may seem frivolous and unnecessary at first thought, they make sense. Most of them are budget priced.

## HEALTH

### Try To Understand "Difficult" Oldsters

The moods and tantrums of very old people are really not "difficult" to live with if one makes an effort to understand their causes. This was the subject of a recent article by John E. Eichenlaub, M.D., in "Today's Health", an official publication of the American Medical Association.

"A person is as old as his arteries," Eichenlaub said. He pointed out that the signs of real old age begin to show as the arteries that supply different parts of the brain begin to wear out. Increased "crotchiness" is the result of this deterioration, but one who understands old people will not be disturbed by occasional outbursts of crotchiness. They go as quickly as they come, and they are forgotten.

The first personality change, according to Eichenlaub, is loss of recent memory. Old people who can remember scenes from their childhood with sharp clarity can have difficulty remembering that their grandchildren visited them a few hours ago. This is humiliating at first, and Eichenlaub said many oldsters will cover up such memory losses by accusing their grandchildren of neglecting them.

Eichenlaub's advice to younger members of the family is to take it with a smile and a friendly word. These little storms are forgotten too. His advice to oldsters is to live on a schedule, pay cash on the line or pay bills at regular intervals, and keep a memo pad handy to avoid the petty embarrassments caused by inability to remember.

Another change caused by arterial deterioration is intensification of immediate and simple emotions. Slight peevishness becomes towering rages. The "lump in the throat" of youth becomes a deluge of tears. But, according to Eichenlaub, this change can be welcomed by other understanding members of the family when it is realized that "even an old time-worn joke or a momentary reminder of some pleasant memory will pull an oldster out of the blues."

More granulated, pulverized, icing and loaf sugar was made in 1952 than in 1951, but less yellow or brown sugar.

The month of August was named after Augustus Caesar.

—Alberta Government Photo.

**200,000th SET SOLD**—This year, for the first time in history, the Alberta Government Motor Vehicles Branch sold its 200,000th set of passenger car licence plates.

In the photo above, M. P. Tellier, former Meadow Lake, Sask., resident who has moved to Edmonton, receives the 200,000th licence from Hon. G. E. Gerhart, Provincial Secretary.

The tremendous increase in car ownership in Alberta in recent years can be judged from the increase in registrations from 100,000 in 1947 to 200,000 at the end of 1953. As many new car owners were added to the total of Alberta motorists in the last six years as existed during the first 42 years of its history.

Inset is shown the 1954 Alberta licence plate. The plates will have black lettering on an orange background and will not be luminous as last year. The Province will be divided into areas and each area assigned a letter combination while all "A" plates will be reserved for Alberta Government vehicles. The letters B, C, D, I, O, Q, S, U and V are not expected to be used but all combinations of numbers from 100 to 999 will be utilized. The new plates are designed for a year's use only but allow metal tags to be affixed if a second year's use is possible. Applications for new licences should be presented with a vehicle approval certificate and the 1953-54 driver's licence.

—Photos courtesy of St. James Leader.

**GARAGE DESTROYED BY FIRE**—Shown above is a front and rear view of the De Bolt Motors garage at Deer Lodge, Man., which was totally destroyed recently by fire. The cause of the fire was reported to be a spark from an acetylene torch igniting inflammable material in the paint shop. The property was valued at \$150,000, and was covered by insurance. The owners, North Star Oil Company are planning to replace the building as soon as possible.

**MARRIED**—Screen actress Marilyn Monroe and former baseballer Joe DiMaggio are left through crowd in San Francisco's city hall where they were recently married.

**VERSATILITY**—Winner of an award for versatility is this two-piece sweater which can be worn three ways. It can be turned into a turtle-neck or scoop-neck sweater. Or the dickie can be worn separately under a jumper.

**EARLY START**—Eleven-year-old Steven Romm of Long Island, N.Y., displays fondness for the dachshund statue which he created. The youngster, who began modelling formal sculpture when he was seven, is having his first one-man sculpture exhibition in New York City.

**GRAND SLAMMERS**—Three champion slammers compare equipment before embarking on a deep-sea fishing trip on the waters off Miami, Fla. The anglers are, left to right: Slammin' Sammy Sneed, pro golfer; Ted Williams, Boston Red Sox slugger, and Charley Goren, world champion at grand slams in bridge.

**ROOT OF THE TROUBLE**—These two cornstalks, held by Joyce Chandler, of Columbia, Mo., were taken from fields where the Missouri Farmers Association is conducting experiments in the use of soil insecticides. The stalk on the left suffered rootworm damage, while the stalk on the right, from a row treated with aldrin, had a healthy root system and no rootworm damage.

# Record Number Of Tourists Visited Canada's National And Historic Parks In '53

**Banff Headed the List With 584,702 Visitors, And Manitoba's Riding Mountain Park Coming Second With 436,344**

OTTAWA.—Record numbers of tourists visited Canada's national parks and historic sites during the seven-month tourist season last year. The influx continues during the winter months in those parks where there are winter sports, but officials stopped their count last October when they recorded 2,915,707 visitors since last April 1—an increase of about 500,000 over a similar period of 1952.

Most visitors toured the 16 national scenic parks where the land is left as much as possible in its natural state. All but five of these parks—located in every province except Newfoundland—reported an increase in visitors in 1953.

Banff which has grown from a 10-square-mile tract to Canada's second-largest at 2,564 square miles headed the list as an outdoor attraction. It had more than 584,000 visitors, about 150,000 more than Riding Mountain park in Manitoba.

Banff was Canada's first national park. It was established in 1885 as a tract surrounding the mineral hot springs which still are a big attraction. From this small tract, the national parklands have grown to an area of more than 12,000 square miles in 68 years and this is expected to be added to when Newfoundland gets a national park.

The Newfoundland government

is understood to be considering an offer of a tract of land in the Bonaville area on Newman sound. It would be offered to the federal government free of encumbrances and Parliament then would be asked to incorporate it as a national park.

One stumbling block to this plan lies in the expectation that Newfoundland's section of the trans-Canada highway would run through this area. If the land was federal property, the federal government would have to pay the entire road-building costs instead of the present equal sharing of such costs with the province.

The annual cost of administration, operation, maintenance and construction of the National parks is about \$6,000,000.

The number of visitors during the last tourist season with 1952 figures in brackets:

Banff 584,702 (512,177); Cape Breton Highlands 32,191 (35,372); Elk Island 172,232 (134,020); Fundy 109,296 (100,622); Georgian Bay Islands 14,255 (9,417); Glacier 479 (835); Jasper 129,411 (100,294); Kootenay 219,485 (167,068); Mount Revelstoke 13,177 (13,880); Point Pelee 417,375 (299,656); Prince Albert 118,720 (105,034); Prince Edward Island 145,827 (122,290); Riding Mountain 436,344 (366,054); St. Lawrence Islands 42,541 (32,937); Waterton Lakes 207,533 (195,562); Yoko 22,216 (40,389).

Historic parks and sites—Fort Anne 18,926 (20,319); Fort Battleford 10,846 (10,644); Fort Beausejour 21,430 (23,249); Fort Chambly 64,767 (68,976); Fort Lenoir 9,236 (9,643); Fortress of Louisbourg 19,995 (18,366); Fort Malden 14,663 (13,016); Fort Wellington 8,116 (8,562); Halifax Citadel 75,868 (38,604); Port Royal Habitation 15,740 (15,119).

## Kitchen Meditations

By JANE DALE

### IN THE DEAD OF WINTER

In the dead of winter, with its frost and snow, How we fondly recall the days when warm winds blow; Tenderly remember the flowers by the way; The shady trees and bushes, and birds in bright array. We think of lakes and rivers—some place to have a swim, And all the joys of summer which distance cannot dim.

In the dead of winter—perhaps we do have fun Skating, skiing, sledding, until the day is done— Yet we watch the dateline; think in terms of spring; Hope to be the first one to hear a robin sing! Frost and snow are welcome if they don't o'erstay. But in dead of winter we wish them far away!

### Irish Immigrants Heading For Alberta

Alberta is beginning to gain favor with immigrants to Canada from Ulster, the Northern Ireland Government reports. Up until now, approximately 90 per cent. of Ulster emigrants have settled in Ontario, the traditional goal of the Irish.

The first sizeable break with tradition came when 35 Royal Ulster Constabulary men went to join the Edmonton City Police. Next month 25 Ulster women will go to different parts of Alberta as shorthand typists.

### RESERVE ARMY UNIT ORGANIZED AT KINDERSLEY

KINDERSLEY, Sask. — Under the sponsorship of the Kindersley Branch of the Legion a unit of the Saskatoon Light Infantry (MG) Reserve Battalion is to be recruited in the Kindersley area.

Drive With Care!

## APPETIZING RECIPES

Please the small fry with these Puffed Cookies! Decorated with puffed corn cereal, they taste like half-candy, half-cookie. Make a tasty addition to the lunch box, too!

### Puffed Cookies

One cup brown sugar, ½ cup shortening, 2 eggs, 1½ cups sifted flour, 2 tps. baking powder, 1 tsp. salt, 2 tps. vanilla flavoring, ½ cup chopped nuts, 2 cups caramel coated puffed corn.

Blend sugar and shortening; add eggs and beat well. Stir in flour, baking powder and salt which have

been sifted together. Add vanilla flavoring and nuts. Mix well. Place teaspoonfuls of dough on greased baking sheets; flatten with fork. Decorate with puffed corn cereal. Bake in preheated moderate oven (375°F.) about 10 minutes. Remove immediately from cookie sheets. Yield: 6½ dozen cookies, 2½ inches in diameter.

## Quick Canadian Quiz

1. Name the third largest province.
2. Over the past 15 years have Canadian tariff rates decreased or increased?
3. Oil and natural gas have been produced in Alberta for how many years?
4. In 1939 the federal government's revenue was \$45.03 per capita. What is it today?
5. In net value of production what industry produces the most wealth in Manitoba?

Answers in Another Column

## Good Year For 4-H Clubs

Saskatchewan had 177 4-H grain clubs and five potato clubs in 1953 with a total enrolment of more than 2,800 members.

Herb R. Clark of the University of Saskatchewan extension department disclosed this in a report on last year's grain club work given at University Farm Week. On the two-acre plots club members produced 146,646 bushels of grain.

Mr. Clark said the top yields reported for wheat, oats and barley respectively were 60, 110 and 68 bushels. A high percentage of lodging was reported in the plots indicating "there is a still greater need for development of strong strawed varieties."

The extension worker said the most common insect damage was by saw-fly and wild oats and sow thistle appeared to be the most serious weed problem.

He said that of the clubs that grew wheat, 94.2 per cent. grew Thatcher. Fortune and Exeter were the most popular varieties of oats and Vantage and Montcalm the leading barley varieties.

An interesting sidelight was that land used for the plots in Saskatchewan had, on the average, been under cultivation for 32 years. Average age of members is 15.2 years.

## Helpful Hints

Sweet oil will remove finger marks from varnished furniture, and kerosene from oiled furniture.

Scales will not form on the inside of a tea kettle if an oyster shell is kept inside it: After the shell has accumulated all the scale it can hold, substitute a new one.

Be sure to keep the lids of your saucepans perfectly clean of odors. The flavor of one dish clinging to the lid can very well spoil another dish of different flavor.

To make good coffee always use fresh water and measure both the coffee and the water to obtain the same strength each time.

Wilted vegetables will perk up if you soak them for an hour in cold water to which a dash of vinegar or the juice of a lemon has been added.

## Cold Weather Can Destroy Grain Beetles

Grain temperatures of 32 degrees Fahrenheit will destroy rusty and sawtooth grain beetles—destructive habitants of off-condition cereals—Lethbridge agricultural scientists have discovered.

But, the weather has to dip to zero before a farmer can hope to cool his grain down to the lethal temperature, Dr. R. W. Salt, entomologist at the Dominion Science Service Laboratories in Lethbridge, said at the end of an eight-month period of investigation.

The 32 degree above zero level has to be held for from two to three weeks to be effective.

In the meantime, Thomas Kilduff, provincial grain beetle specialist at Lethbridge, urged a close watch on farm-stored grain. The insect situation potentially is as dangerous this year as in 1952 when the rusty grain beetle became a problem because of large farm-stored grain supplies, he said.

An investigation by Dr. F. L. Watters, head of stored product insects investigations at Winnipeg, disclosed beetles on five out of 25 widely scattered south Alberta farms investigated last fall.

A constant watch should be kept in grain bins for damp spots and for heating. If these are found, farmers should screen the grain for insects. He pointed out the beetles can be very destructive. One Enchant, Alta., farmer lost 1,200 bushels from beetles last year, he said.

Dr. Salt and his assistants, Norman Church and Arthur Hewitt, found that a 59 degree temperature was not high enough to promote insect development but temperatures from 41 degrees upwards were too slow in killing to be of much use. Temperatures of 14 above killed in about half a day but this was thought to be lower than practical for the farmer to cool his grain to.

The practical lethal range for grain temperatures seemed to lie at 32 degrees above zero and down to 25 if possible. The colder the better, Dr. Salt said.

Grain, because of its high specific heat, is difficult to cool and should be turned as slowly as possible when chilling. Atmospheric temperatures above zero probably will not cool it sufficiently to kill the beetles, he said. He advised that the grain temperature be taken after turning.

### ANSWERS TO QUICK QUIZ

ANSWERS: 5. Manufacturing is first, agriculture second. 3. For 40 years. 1. British Columbia. 4. Ottawa's annual revenue is now about \$300 per person. 2. Tariff rates have decreased. Between 1937 and 1951 they decreased by 28 per cent.

(Material prepared by the editors of Quick Canadian Facts, the pocket annual of facts about Canada.)

Longevity: At June 1, 1952 Canada had 8,000 women and 5,400 men of 90 or more years.

The wool of the angora goat of Asia Minor and South Africa is called mohair. 3075

♦ Canadiana: Christmas trees was big business in the Kamloops and Nelson, B.C., Forest Districts last year; total sales for 1952 on exported trees was \$700,000, most of them to the U.S.A.; 1,700,000 trees were cut under special permit... the most important New Year Baby in that area, according to High River, Alta. Times was the Sheep River Municipal District; godparents, the Department of Municipal Affairs... Mayors from five towns, old timers, were present for the celebration of Alameda, Sask.'s 70th anniversary... baby sitting for the Watson family at Abbotsford, B.C., on New Year's eve, William J. Theobald was found dead at 6 a.m., having succumbed to a heart attack... one hundred years old, and experienced buffalo hunter of the early days, Francis Beaudry died at his home in Meadow Lake, Sask.; in his early youth he knew no other lodging than the tepee... and also at Meadow Lake, funeral was held for Andrew Samstead, a Norwegian, veteran of the Spanish-American War, who inhabited an island in Flotten Lake, earning him the name of "Robinson Crusoe"; animals of the northern Saskatchewan wilderness were his companions... Something new at Mission, B.C., when the retiring News Editor of The Fraser Valley News, Miss Wanda Stachon was honored by the District Council, Board of Commissioners and office staffs with presentation of a beautiful silver tea service; relations with the press there were lauded by number of speakers at the affair... Reported in the Camrose, Alta. Canadian, "Dogs came in for some attention at Town Council meeting on Monday. They did not help their cause by taking a nip at the Mayor's heels... easy for Fred Campbell of Bristol, N.B., who went into his yard, saw two deer, returned to the house, picked up a rifle and shot one... a device to see and magnify fish at a considerable depth is being installed in several of the Lunenburg, N.S., Dragger fleet; saves a great deal of time and material... a six-year-old Penticton, B.C., boy, Charles Lamb, grasped a fallen live wire on street; was saved by department employees who released his grasp, and he came out of the close brush with death with only tiny burns on his hands...

♦ Herbert, Sask. Herald: "Sale by Canadian government to the A. V. Roe Canada Ltd. of big aircraft plant at Malden, Ont., marks first of what may be hoped will be series to reduce the scope of government activities in industrial and business enterprise. Prime Minister St. Laurent and his cabinet colleagues are to be commended for their decision in the matter."

♦ The Bureau of Statistics reports that 19.7 per cent. of low-income families in Canada spend nothing for medical, hospital, dental or any other kind of health care. Asks the Chilliwack, B.C. Progress, "Here again baby bonus was supposed to fill a great need. What is it being spent for?"

♦ The farmer by nature in most cases is a very active man and scarcely a day goes by in his life on the farm that he isn't doing something. Commenting, the Hanna (Alta.) Herald, says "Upon his retirement and living in town he feels the need for more activity. As a result he devoted his energies to church work, municipal affairs and various enterprises that benefit the community."

♦ "There's still a peaceful pace in the small town. The glowing promise of the morning sun, shaded if at all, by trees, not buildings. The noisy silence of an idle noon-hour. A sky overhead unperturbed by soot. Twilight on the front porch. Day's end." These are still things the big cities will never know—these are the things which millions of Canadians will never know. And which even memory will soon forget so long as factories insist on standing in herds instead of by themselves, says the Rossland, B.C. Miner.

Today is yesterday's pupil.

## Patterns Luncheon Cloth!

62 INCHES

7228

by Alice Brooks

Pretty pineapples in a striking design make this tablecloth the star of your club luncheon! It's 62-inches across with scalloped edges, novel corners. Fast crochet! Pattern 7228. Use heavy cotton for 62-inch cloth. No. 30 cotton for 42-inch centerpiece.

To obtain this pattern send twenty-five cents in coins (stamps cannot be accepted) to:

Household Arts Department, Prairie Publishers Limited, 60 Front Street W., Toronto. Be sure to write plainly your Name, Address and Pattern Number.

TEN COMPLETE PATTERNS to sew, embroider, crochet—printed in the Alice Brooks Needlecraft Book! Plus many more patterns to send for—including gift ideas, bazaar money-makers, toys, fashions! Send 25 cents now!

## SMILE OF THE WEEK

### JUST A PARCEL

It was discovered that a parcel of twenty dollar bills was missing at the bank. The staff worked all night trying to find them.

Next day, Sally, a new girl clerk, walked into the bank to begin her daily duties. The chief cashier asked her: "Sally, did you see a parcel of twenty dollar bills?"

"Oh, that! Why, I just took them home to show mother the kind of work I'm doing."

## OUR COMPLETE SHORT STORY —

## Casket for the Dead

By Fank Litchman

Rick walked over to the casket with Cosy Lombardi. The deceased was dressed in an expensive blue suit with wide lapels and a pearl stickpin adorning a gaudy tie. Rick thought of his brother, Art, who had been drawn into the rackets by Cosy's coaxing voice and promise of easy money. Now Art was dead. They had cut him down because he wanted to pull out.

Rick lifted his eyes and stared into the blue orbs of Big Steve, whose lips barely moved around his cigar. "Too bad about Art," Big Steve said.

"I wonder who did it," said Rick softly, squinting through the haze of tobacco smoke.

Big Steve shrugged. "Who knows?"

"You do," said Rick.

Although the conversation was inaudible to the onlookers, the room became ominously quiet. The dapper Carmen stopped pacing and the Bull with his big hands on his knees sat straight on his chair.

Rick thought fast. One wrong move and they'd be on him like a pack of hounds. They had frisked him when he came in.

"It's going to be a beautiful funeral," said Rick.

"Yeah," said Big Steve. "He was just saying the other day how he wanted to get out of the rackets. He's out now. You know, I ain't felt so bad since I lost my wife."

"I know what he meant to you, Steve."

The tension broken, everyone relaxed but Rick. He knew one of these Joes had the answer and he was going to find it. He would see how it felt to kill a man.

Soapy Connors, a free lance photographer, came in and took shots of Lombardi in the casket. The flashes made Rick blink. Soapy walked over to Rick, flicking his knuckle on his nose. "I got news," whispered Soapy. "The cops found the gun what killed Art."

Rick grasped Soapy's arm. "Whose gun?"

"Take it easy, Rick. You been darn nice to me. You helped me when I needed it and y'know I'll do all I can to help ya out. They found the gun about half a mile from the killing. It's Cosy's gun and it had his fingerprints."

"But Lombardi's been dead for two days," said Rick. "Art was killed yesterday."

"I'm only telling ya what I found out. Can I help it if the guy is dead?"

"Thanks a lot anyhow."

"That's okay. If anything else turns up, I'll let you know. You going to be here for a while?"

"Yes, until the funeral."

After Soapy left, Rick tried to figure it out and could come to only one conclusion. One of the torpedoes had used Lombardi's gun. Which one?

An agitated Soapy Connors returned shortly and steered Rick into another room where they could be alone. Soapy was pale. "Rick, I got news. Oh, Rick, have I got news."

Soapy pulled a negative out of his pocket.

"It's only the picture of a dead rat," said Rick.

"Look closer. Lookit his eyes."

"Why, they're half open!"

"Yeah. Lombardi blinked when the flash went off and dead men don't blink."

It was clear now to Rick. Cosy had been so certain of not getting caught, he became careless and had tossed the gun away. He

probably had some sawbones dope him up so he looked dead and sign a death certificate. But he must have had something big up his sleeve. Big Steve had said he wanted out! What a sweet way to leave, in a casket, ostensibly dead. The boys would never let him leave alive. He knew too much, like Art. Now Art was dead and the rat that killed him was still alive.

"I don't know if I've got guts enough to kill a skunk but I'm going to find out," he said.

"Take it easy, Rick. No sense in running in there with Big Steve, the Bull, Carmen, and other itchy trigger fingers waiting."

"Cosy was pulling out but he had to trust one guy to take him out of that coffin. Who is he?"

"I dunno," said Soapy, "and I don't care. Let the law take care of its own. I always says. I'm getting out to catch us some cops."

In the other room, Carmen was still striding and the Bull sat on his tilted chair. Big Steve was standing in the same spot.

"The funeral is soon, isn't it?" asked Rick.

"Yeah," grunted Big Steve morosely.

Glancing down on Lombardi's white bosom, Rick noticed with a shock that the pearl stickpin was missing and a small tinge of red was spreading near the corner of the wide lapel. Someone had got to Cosy before him.

At first he was angry at being cheated, then vast relief engulfed him.

Rick looked up quickly into Big Steve's bleak eyes. They were like two match heads about to burst into flames. Suddenly the room was dashed into silence again.

"He killed my wife," whispered Big Steve. "I wanted to get him ever since. And he killed your brother. But all this talk won't do you any good." He hunched

## Fashions

Use Remnants!

4818  
by Anne Adams

FABRIC-SAVER! Use remnants of contrast colors, checks or plaid 'n' plain for this easy apron! Cheer up chores in the cover-up version! Entertain gaily in the half-apron. It's a sew-thrifty — perfect for bazaars, gifts!

Pattern 4818: Misses' Sizes Small (14, 16); Medium (18, 20); Large (40, 42). Small, 1½ yards 35-inch check; 1½ yards plain. This pattern easy to use, simple to sew, is tested for fit. Has complete illustrated instructions.

Send thirty-five cents (35c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to:

MILLET FARMER  
OWNS BIBLE  
263 YEARS OLD

At a recent contest sponsored by the Leduc Seventh-Day Adventist Church to find the oldest Bible in the district, in connection with their "Back to the Bible" crusade, Arnold Marks, a Millet, Alta., district farmer, produced a Bible which was owned by Mr. Hans Stuehmer. This was the oldest one shown.

Published in 1690 and printed in German, it has been in possession of the Stuehmer family for many years, and was printed when there were very few privately owned Bibles. At that time the only Bibles were in churches and were securely fastened to a pillar or the pulpit of the church. As a rule anyone who wished to read the Bible had to go to the church to read one.

Mr. Marks received a new Bible in recognition of his winning entry. Over 20 of the Bibles exhibited were printed before 1900.

Saskatchewan  
Has Extensive  
Highway System

CALGARY.—Saskatchewan has the most extensive highway system in western Canada, all of which has needed re-building since 1944. Highways Minister J. T. Douglas of Saskatchewan told the Alberta section of the Prairie Road Builders Association here recently.

Saskatchewan had found more wood pulp that was realized; had vast mineral resources still in the exploratory stage, and increasing tourist industry. These, coupled with the need for opening the north, require much more highway development, Mr. Douglas said.

his shoulders and stepped towards Rick.

The cops burst in with Soapy standing fearfully behind them. Rick told the story. The cops took Big Steve into custody.

"Gosh," said Soapy, "I thought I wouldn't be in time."

"Plenty of time," said Rick, "to attend a real funeral. That's what I came for and that's what we're going to have."

Originally, pedestals were used only to carry statues, but the ancient Romans occasionally placed columns upon pedestals.

## PRAIRIE REGION

Unemployment Insurance Benefits  
Paid To Claimants Increased, '53

Unemployment insurance benefits paid to claimants in the Prairie Region rose by forty-two per cent. last year, reaching a new high of \$19,369,480. J. W. Temple, Prairie Regional Superintendent of the Unemployment Insurance Commission, said recently.

The rise is largely accounted for by an increase in unemployment insurance rates which became effective July 14th, 1952. At that time, the top rate rose from \$21.00 to \$24.00 weekly. Other factors contributing to the record total of benefit payments in 1953 include sickness benefits and an increase in the insured population, according to Mr. Temple.

A break-down by provinces of the payment of unemployment insurance benefits in the past year, is as follows: Manitoba, \$7,088,604.92 (of which \$5,900,087.92 was paid out in the Winnipeg area alone); Saskatchewan, \$3,342,922.70; Alberta, \$6,579,234.40;

Northwestern Ontario, \$2,358,718.65.

The 1953 total was made up of regular benefits of \$18,124,951 and supplementary benefits totalling \$1,244,529. The number of insured persons in Prairie Region rose eight per cent., to a total of 694,131. 3075

How To Save  
Money and Get  
Fast Cough Relief

Here's an old, tested, home mixture your mother knew . . . still a most dependable remedy for distressing coughs. Fast and effective, children like its pleasant taste.

Make a syrup by stirring two cups of sugar into one cup of water until dissolved . . . no cooking needed (or you can use maple syrup or honey instead). Now pour 2½ ounces of PINEX CONCENTRATE into a 16 ounce bottle, and add the syrup you've made. You'll have 16 ounces of fast acting, pleasant tasting cough medicine, more than you could buy for four times the money, with effective relief for the whole family.

Pinex — a special compound of proven medicinal ingredients — must help you, or money refunded.

PINEX IS EASY TO MIX—  
FAST ACTING—EFFECTIVE

## Date-Orange Pudding

Combine in a greased casserole (6-cup size) ¼ c. corn syrup, 1 tbs. grated lemon rind and ½ c. orange juice. Preheat oven to 375° (moderately hot). Mix and sift once, then sift into a bowl, 1½ c. once-sifted pastry flour (or 1½ c. once-sifted all-purpose flour), 2½ tps. Magic Baking Powder, ½ tsp. salt and ¼ c. fine granulated sugar. Mix in ¾ c. corn flakes, slightly crushed, and ½ c. cut-up pitted dates. Combine 1 well-beaten egg, ½ c. milk, ½ tsp. vanilla and 3 tbs. shortening, melted. Make a well in dry ingredients and add liquids; mix lightly. Turn into prepared dish. Bake in preheated oven, about 40 minutes. Serve warm, with pouring cream. Yield—6 servings.

Always Dependable

FINE  
CHEDDAR  
FLAVOR

Worry of  
FALSE TEETH  
Slipping or Irritating?

Don't be embarrassed by loose false teeth slipping, dropping or wobbling when you eat, talk or laugh. Just sprinkle a little FASTEETH on your plates. This pleasant powder gives a remarkable sense of added comfort and security by holding plates more firmly. No gummy, gooey, pasty taste or feeling. It's alkaline (non-acid). Get FASTEETH at any drug counter.

Trochu came down for a game of hockey with the Carbon boys. The ice was very heavy, Trochu winning 2-1.

#### INCREASED FARM INCOME IS ESSENTIAL

Increased farm income is essential to the economic welfare of Canada, two of the country's largest unions said in a brief presented to the Federal Cabinet at Ottawa Feb. 10. The unions—

the United Steelworkers of America and the United Automobile Workers, both affiliates of the Canadian Congress of Labor—met the Cabinet Ministers to discuss unemployment in the farm implement industry.

The labor representatives said falling income of Canadian farmers was one of the primary reasons for heavy layoffs, and restoration of farmers' buying power ranked high in the group's pro-

posals. Close consultation between the unions and farm groups preceded the presentation.

Dealing with farm income, which has dropped 22 per cent over a two-year period, the unions suggested protection of farm prices to enable farmers to plan

#### IN MEMORIAM

In loving memory of our husband and father, Robert Bertsch, who passed away Feb. 20th, 1952 "With laughing eyes and loving smile,

As he went out the door,  
We little thought within our hearts

That he'd return no more.  
We often sit and think of him,  
And think of how he died.  
To think he could not say  
"Goodbye",

Before he closed his eyes."

Lovingly remembered by his wife, Viola, Loretta and Adam.

ahead, expansion of co-operative marketing, removal of the paradox of huge food surpluses in Canada while people in other countries starved, lower interest rates on farm improvement loans and stricter action against combines which dominate food processing, thus exploiting both farmers and consumers.

Unemployment in the industry has extended over the past 21 months with 5,500 employees out

Owing to the mild weather, curling is at a standstill.

#### CARD OF THANKS

Many thanks to all the kind friends and neighbors, Chris Diede and Ted Ohlhauser, who so kindly took me and brought me home from hospital. Also for cards and gifts on the recent birth of our son.

Mr. and Mrs. Jim Graham.

## 1 NEW HIGH-COMPRESSION POWER

Two advanced, more powerful high-compression engines in Chevrolet for '54! Now in gearshift models is the "Blue-Flame 115." Teamed with Powerglide, optional at extra cost on all models, is the "Blue-Flame 125"—the most powerful Chevrolet passenger car engine ever built. Both great engines deliver finer, smoother, more quiet performance with important gasoline savings!

## 2 NEW POWER BRAKES

For 1954, Chevrolet brings you this wonderful advance in driving ease and convenience. With Chevrolet Power Brakes you simply swing your foot from accelerator to brake pedal for a smooth, amazingly easy stop. Power Brakes are optional at extra cost on all models equipped with Powerglide automatic transmission.

## 3 NEW AUTOMATIC SEAT CONTROL

Touch another control to move the front seat up and forward or down and back into your most comfortable driving position! The control is placed as shown where the driver can use it conveniently. Optional at extra cost on Bel Air and "Two-Ten" models in combination with Automatic Window Controls.

## 4 NEW AUTOMATIC WINDOW CONTROLS

You just touch a button to adjust front windows to suit the weather and your liking! The driver can adjust windows on both sides from his seat, while separate controls are provided on the right-hand door for that window. Optional at extra cost on Bel Air and "Two-Ten" models in combination with Automatic Seat Control.

\*Optional at extra cost
